# FUJI BINGSHAN

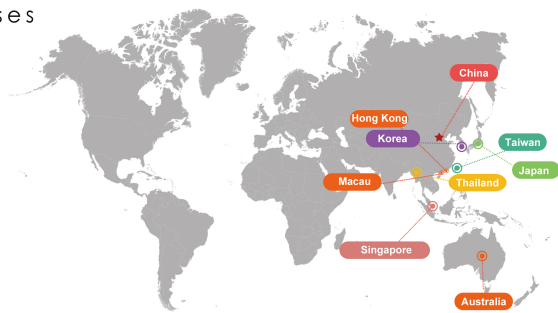

Dalian Fuji Bingshan Vending Machine Co., Ltd was founded on October 10, 2013, which is the first joint venture company to manufacture and sell vending machines on a large scale in China.

Since its established, the company has been focusing on the development, production, sales and after-sales service of vending machine products. The company has always adhered to the principle of "talent-oriented, honest management", combining foreign advanced technology and management methods with the domestic market to provide customers with high-quality products and comprehensive service solutions. The company is a state-level "high-tech enterprise" and the largest overseas production base of Fuji Electric. Its market share is far ahead.

The company has built the world's most advanced intelligent production lines, leading the world in production capacity and technology level in the future, it will gradually become the world's largest and most advanced vending machine research and production base, and rely on a comprehensive service network to provide the most professional solutions for customers around the world.
